Welcome to Kay Dentistry!

Our mission is to offer the highest level of dental care possible to the community in a comfortable and inviting atmosphere at affordable fees. If you have been searching for a dental clinic you can trust in and feel comfortable with, no need to look further. When you step into our clinic, you will know you have found a dental clinic which you can maintain a lifelong relationship with. Please be assured that you will be in the most caring hands in town. Please pay a visit and, with a freshly brewed cup of coffee, check out the comfortable in-house atmosphere and care services we are offering!

**A Historic Building Best Equipped for Modern
Dental Practice**

The building we are practicing in was built in 1953 as a dental clinic, and has been used as a dental clinic ever since. With only two ownership changes over the past seven decades, the site is firmly established as a community dental clinic. The building is historical, but with close to one year of renovation, it has now reborn as a frontline, modern dental clinic with all brand new equipment including a 3D CT X-ray. However, when you step in, you will still feel the warm welcoming atmosphere that comes only with long history and tradition.

Service We Offer

We offer comprehensive general and cosmetic dental services and implant surgery that meet the various needs of families and age groups. For details, please visit the clinic's website.

Quality is Our Top Priority

When you seek care at our office, rest assured knowing that we use only the highest quality equipment, material, and advanced technologies to enhance the quality and fit for your dental care. We adopted laser dentistry, one of the latest advances in the industry, to best serve our patients.

3D CBCT X-Ray

We are equipped with 3D CBCT X-Ray, which is a game changer in dental radiographic imaging. The additional information we get with 3D image is invaluable. Seeing things in three dimensions greatly increases understanding of the problem for patients also. Patients now can co-diagnose their issues and treatment needs with a dentist watching both 2D and 3D images on a monitor comfortably seating on a patient chair.

COMPASSIONATE CARE

KAY SAVINGS PROGRAM

For patients with no dental insurance, we offer a perfect plan – the **Kay Savings Program**. The program works just like dental insurance, but at a lesser cost!

How it works?

You and your family will receive an exam and cleaning twice a year at no cost. Additionally, you will receive a 75% discount on fillings and periodontics maintenance, and 50% off on all other dental treatments up to an annual maximum of \$2,500 per person. The contract is renewable annually.

	Fee (Year)
Single	\$360
Couple with no child	\$647
Family with one child	\$840
Each additional child	\$193

There are no deductibles. Also, you do not need to file any claim forms.

For the family membership, only spouse and children under 18 are eligible. Children attending college are eligible if they are less than 24 years old.

What treatments are covered?

A wide range of comprehensive dental treatments are covered including exams, x-rays, cleanings, sealants, amalgam and composite restorations, crowns, bridges, dentures, extractions, periodontics, and endodontics. Implant surgery is also covered.

So, how much I can save?

With the Kay Savings Program, you will enjoy significant savings over what you would pay without subscription to the program. Note that with two exams and cleaning alone, you are already saving well over \$300 for a single and \$1,200 for a family with a child. The Kay Savings Program is a great option for people without a dental insurance!

COMFORTABLE ATMOSPHERE

GREAT PROGRAM FOR SMALL BUSINESS

The Kay Savings Program is an ideal alternative to dental insurance for small business owners who want to offer dental insurance to their employees. While the employees enjoy great benefits, the program cost considerably less than traditional dental insurance plans. Volume discounts are also available. Please contact us to further discuss options for you and your employees.

Implants

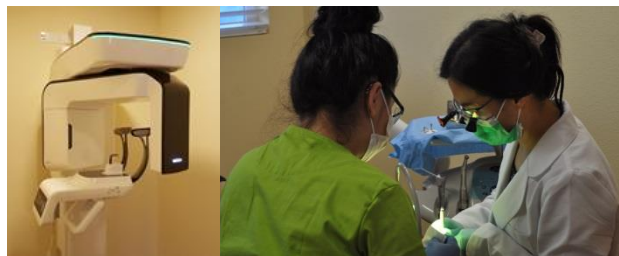

Dental implants are changing the way people live. With them, people are rediscovering the comfort and confidence to eat, speak, laugh and enjoy life. If, like many others, you feel implant dentistry is the choice for you, please pay us a visit with free consultation with Dr. Kay Yoo. At the consultation, your specific needs and considerations will be addressed. We will work with you very closely to help make your procedure a success.

Monthly Payment with No Interest

Our fee is competitive, but for patients who cannot pay for the treatment fully when service is rendered, CareCreditSM is available. It offers flexible monthly payment options. The deferred interest will be waived once the full balance is paid off within the agreed time frame. There are no application fees, annual fees, or prepayment penalty fees, and approval decision is generally instantaneous.

Gift for New Patients

We offer a custom made mug worth \$20 to new patients as a welcome gift.

CUTTING-EDGE TECHNOLOGY

Where are we located?

We are conveniently located at the corner of Peralta Blvd and Martha Ave near downtown Fremont. With a parking lot with 25 exclusive parking spaces right off the streets, access and parking cannot be more convenient.

Call us for a free consultation!

Dr. Kay Yoo with over 15 years of experience will carefully assess your treatment needs.
